Staff and Volunteer Acceptable Use Policy Agreement

Introduction

The internet is a valuable resource that can raise educational standards by offering both pupils and teachers opportunities to search for information from a very wide range of sources based throughout the world. However, some of the information to be found on the internet will be inappropriate for pupils and we feel it is important to have a policy in place that takes this issue into account. The school has a duty to ensure that before using the internet with pupils, staff have had the opportunity to discuss how they will deal sensitively with inappropriate use.

The following policy helps to define appropriate and acceptable use by both staff and pupils and has been further discussed with Governors and pupils themselves. Please also refer to our Safeguarding and Child Protection Policy and Guidance for Safer Working Practice for Adults who work with Children and Young People in Education Settings. The implementation of this policy is the responsibility of all members of staff

Technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity, and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe internet access at all times.

Safeguarding Children

Sacred Heart Catholic Primary school is committed to providing a safe and secure environment for children, staff and visitors and promoting a climate where children and adults will feel confident about sharing any concerns which they may have about their own safety or the well-being of others. We aim to safeguard and promote the welfare of children by protecting them from maltreatment; preventing impairment of children's health or development; ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and taking action to enable all children to have the best outcomes.

The School's Safeguarding policy draws upon duties conferred by the Children Acts 1989 and 2004, The Children and Families Act 2014, S175 of the 2002 Education Act, and the guidance contained in "*Working Together to Safeguard Children*", the DfE's statutory guidance "*Keeping children safe in education*", Guidance and procedures produced by the Wigan Safeguarding Children Board. We also have regard to the advice contained in DfE's "*What to do if you're worried a child is being abused*" and "*Information Sharing – Advice for practitioners*". The policy is applicable to all on and off-site activities undertaken by pupils whilst they are the responsibility of the School.

I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems and other users. I recognise the value of the use of ICT for enhancing learning and will ensure that pupils receive opportunities to gain from the use of ICT.
